About Us.

Introduction

We are a leading construction and contracting company dedicated to providing exceptional services to our clients. With our expertise and commitment to excellence, we deliver projects that exceed expectations.

DTCS (Dynamite Trading and Contracting Services W.L.L). was established in 2017 in the Qatar Chamber of Commerce to provide Contracting and Sub-Contracting work for Civil, Electro-Mechanical, Infrastructure work including Hospitality and Cleaning Services. With over 8 year experience in Construction Industry, we aim of being the market leader in everything we do by ensuring that every project will be successfully done on time within budget and at most quality and in full compliance with project specification and international standards in Qatar. DTCS have successfully completed projects of all sizes from Residential buildings to Large Commercial Developments.

VISION

Our vision is to revolutionize the construction industry by embracing innovation, sustainability, and excellence. We strive to be the benchmark for quality and efficiency in every project we undertake. Our ambition is to expand our footprint beyond Qatar, establishing a global presence and becoming synonymous with cutting-edge construction practices. We aim to foster a culture of continuous improvement and collaboration, leveraging technology and expertise to deliver unparalleled value to our clients and stakeholders. By pursuing our vision with unwavering dedication, we aspire to shape the future of construction, leaving a lasting impact on communities and the environment.

MISSION

Our mission is to transform the construction industry through innovative practices, sustainable solutions, and unwavering commitment to excellence. We aim to establish ourselves as a global leader in construction, setting the standard for quality, efficiency, and client satisfaction. By embracing cutting-edge technology and fostering a culture of continuous improvement, we strive to deliver exceptional value in every project we undertake. Our goal is to expand our presence internationally while making a positive impact on communities and the environment. Through collaboration, expertise, and dedication, we are dedicated to shaping a brighter future for the construction industry and beyond.

Construction Services:

- **General Contracting:** Managing and overseeing construction projects from start to finish.
- **Design-Build:** Offering both design and construction services under one contract.
- **Pre-construction Services:** Estimating, scheduling, value engineering, and feasibility studies before construction begins.
- **Construction Management:** Providing project management services, including scheduling, budgeting, and subcontractor coordination.
- **Civil Engineering:** Design and construction of residential, commercial and infrastructure projects.
- **Architectural Services:** Designing buildings and structures according to client specifications and regulatory requirements.

Trading Services:

- **Import/Export:** Facilitating the import/export of construction materials and equipment.
- **Supply Chain Management:** Managing the flow of goods and services from suppliers to customers.
- **Material Supply:** Procuring and supplying construction materials such as steel, cement, wood, G.I Sheets/duct, pipes, DBs, Panels, HVAC Equipment, pumps etc.
- **Equipment Rental:** Renting out construction machinery and equipment to contractors and builders.
- **Logistics:** Handling transportation and delivery of construction materials and equipment to project sites.

Integrated Services:

- **Smart Building Technologies:** Incorporating technology solutions such as smart thermostats, BMS, GRMS, lighting controls, and irrigation systems for energy efficiency and automation.
- **Green Building Practices:** Implementing sustainable building and landscaping practices to reduce environmental impact and conserve resources.

Landscape Maintenance:

- **Irrigation Maintenance:** Inspecting and repairing irrigation systems to ensure efficient water distribution and conservation.
- **Hardscape Maintenance:** Cleaning and repairing pathways, driveways, patios, and other hardscape features to prevent deterioration.
- **Lighting Maintenance:** Checking and replacing outdoor lighting fixtures to ensure visibility and safety at night.
- **Seasonal Cleanup:** Removing leaves, debris, and snow from landscape areas to maintain cleanliness and prevent hazards.
- **Landscape Design Updates:** Redesigning or updating landscape elements to enhance aesthetics and functionality.

Building Maintenance:

- **Routine Inspections:** Regular checks for structural integrity, safety hazards, and maintenance needs.
- **HVAC Maintenance:** Cleaning, servicing, and repairing heating, ventilation, and air conditioning systems.
- **Plumbing Maintenance:** Inspecting and repairing pipes, fixtures, and drainage systems to prevent leaks and blockages.
- **Electrical Maintenance:** Testing and maintaining electrical systems, including panels, DBs, wiring, outlets, and lighting fixtures.
- **Appliance Maintenance:** Servicing and repairing household or commercial appliances such as refrigerators, stoves, and washing machines.
- **Painting and Decorating:** Touching up paintwork and maintaining interior and exterior aesthetics.
- **Carpentry and Joinery:** Repairing or replacing doors, windows, cabinets, and other wooden structures.
- **Flooring Maintenance:** Cleaning, repairing, or replacing flooring materials such as tiles, marble, granite, hardwood, or carpeting.
- **Security Systems Maintenance:** Testing and maintaining security cameras and access control systems.

OUR SERVICES

Specialized Services:

- **Electrical and Plumbing:** Installation of electrical and plumbing systems in buildings.
- **HVAC (Heating, Ventilation, and Air Conditioning):** Design and installation of HVAC systems for buildings.
- **Interior Fit-Out:** Designing and constructing interior spaces according to client needs.
- **Renovation and Restoration:** Upgrading and restoring existing buildings and structures.
- **Project Financing:** Providing financial solutions for construction projects, including loans and investment.

Consulting Services:

- **Project Management Consulting:** Advising clients on project planning, budgeting, and execution.
- **Engineering Consulting:** Providing technical expertise and guidance on construction and infrastructure projects.
- **Legal and Regulatory Compliance:** Assisting clients in navigating legal and regulatory requirements in the construction industry.
- **Environmental Consulting:** Assessing and mitigating environmental impacts of construction projects.

The major MEP services include:

Mechanical Division

The Mechanical Division is involved in a very pro-active way to ensure that the project requirement is achieved. We are ready to carry out all diversified works including Central Air Conditioning, Plumbing, Drainage and Fire Protection with the top quality, efficiency, productivity and up to the satisfaction of our clients.

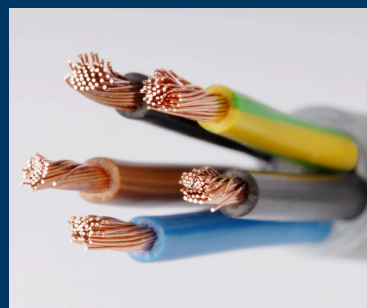

- Design and Build all works related to Mechanical Services
- HVAC
- Plumbing and Drainage
- Fire Fighting /Protection System
- Mechanical Car Park Ventilation
- CO Monitoring and Control
- Kitchen Hood and Exhaust system
- Smoke Exhaust System
- Sheet Metal Fabrication
- Fire Detection and Alarm
- FM200 and Deluge System
- Centralized Heating System

Electrical Division

The Electrical Division is ready to carry out all types of electrical systems from Power Distribution to Low Voltage System in accordance with the National and International standards to the top quality, efficiency, productivity and to the satisfaction of our clients.

- Design and Build all works related to Electrical Services
- Building Management System
- Medium and Low Voltage Switchgear
- Electrical Distribution System
- Low Voltage Power & Control System
 1. Voice/Data/Structured Cabling
 2. Audio Visual/Home Automation System
 3. Access Control System
 4. Room Management System
 5. IP TV System
 6. CCTV System
 7. Background Music
 8. Public Address System
 9. Fire Alarm and smoke detection system
- 10. Telephone and Data System
- 11. Intercom System
- 12. Central Battery System
- 13. Testing and Commissioning

KNOWLEDGE

Our continuous learning and adaptation to technology empowers us to be competitive in the market. The knowledge we have from our qualified team enables us to complete the project successfully and on time

TEAM WORK

Our people thrive on the challenge to excel in any environment, work on their special skills, are committed to common goals and good team players. We recruit experienced professionals and our aim is to constantly develop and empower our employees and create an environment where achievement is recognized and success is rewarded

QUALITY

Our commitment to quality is one of the bases for our competitive advantage and customers build their trust on us. Our customers' satisfaction is one of our prime importance

Environment, Health & Safety (EHS)

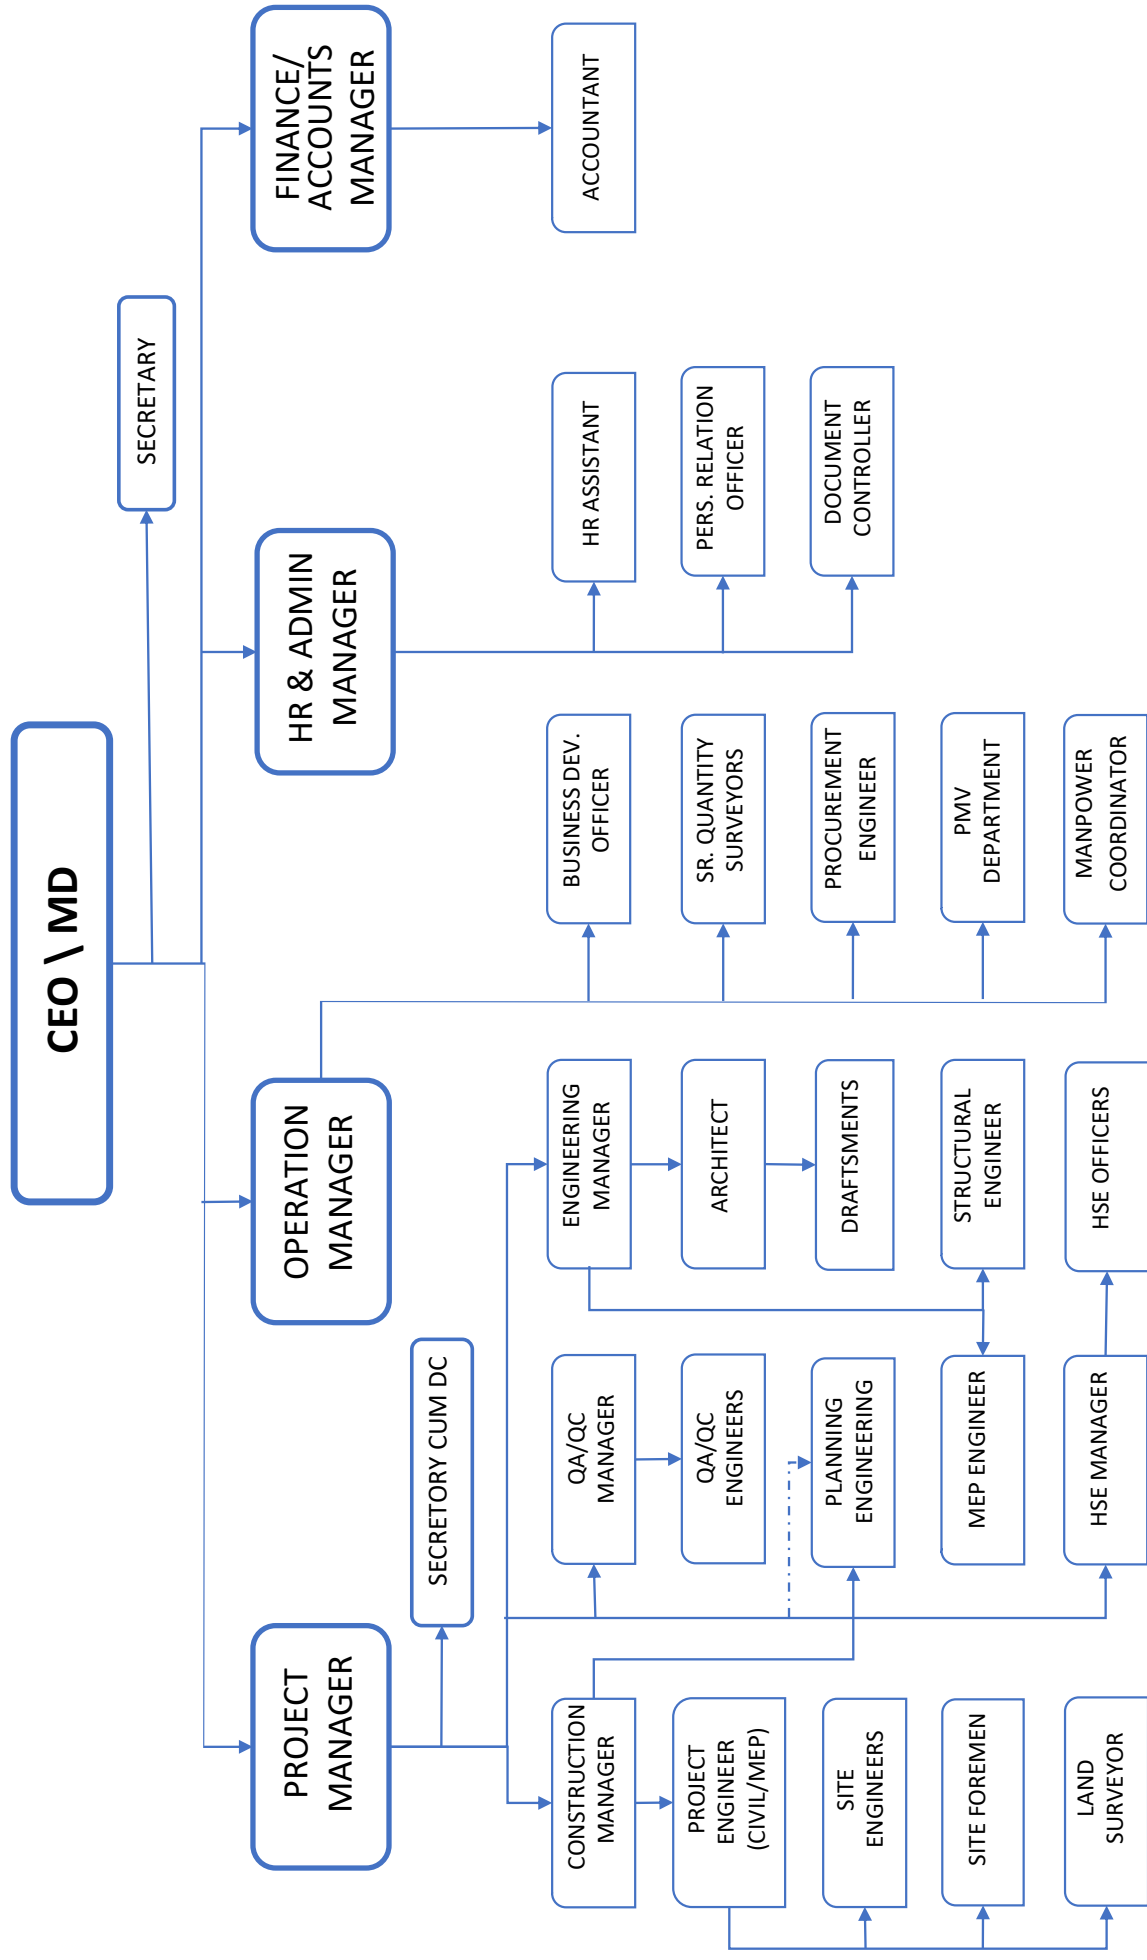

DTCS affirms its commitment to conserve the Environment and provide a Safe and Healthy Workplace to all employees

Objectives

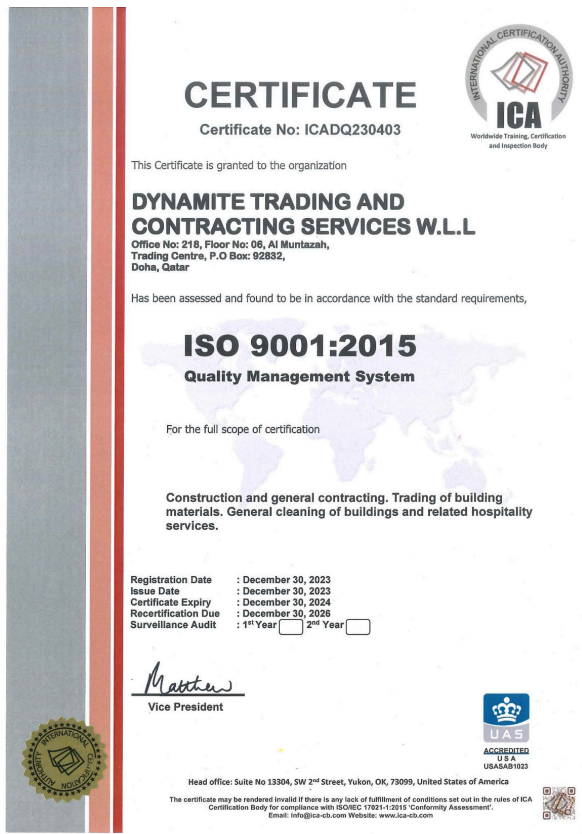

Incorporating EHS considerations in all business decisions. Comply with the legal requirements with respect to EHS

ORGANIZATION CHART

Commitment to Quality Management

Quality Policy: ISO 9001:2015
Certificate No.: ICADQ230403

DTCS is committed to meeting customer requirements through continual improvement of its Quality Management System.

DTCS shall sustain organizational excellence through visionary leadership and innovative efforts.

Quality Assurance: ISO 9001:2015

The company has implemented a Quality Management System that complies with ISO 9001:2015 standards. This includes:

- Fulfilling all contractual obligations, clients' specifications, and industry standards in construction, general contracting, trading of building materials, and general cleaning of buildings and related hospitality services.
- Complying with all statutory regulations and codes of practice.
- Providing and maintaining a good, clean environment and a safe workplace.
- Ensuring a high level of performance and professionalism by offering training and adequate resources.
- Continuously improving work methods.
- Our commitment to quality is foundational to our operations, driving us to meet and exceed expectations consistently in all our services.

Environmental Policy:

ISO 14001:2015

Certificate No.: ICADQ230404

DTCS is committed to meeting environmental requirements through continual improvement of its Environmental Management System.

DTCS shall sustain environmental excellence through visionary leadership and innovative efforts.

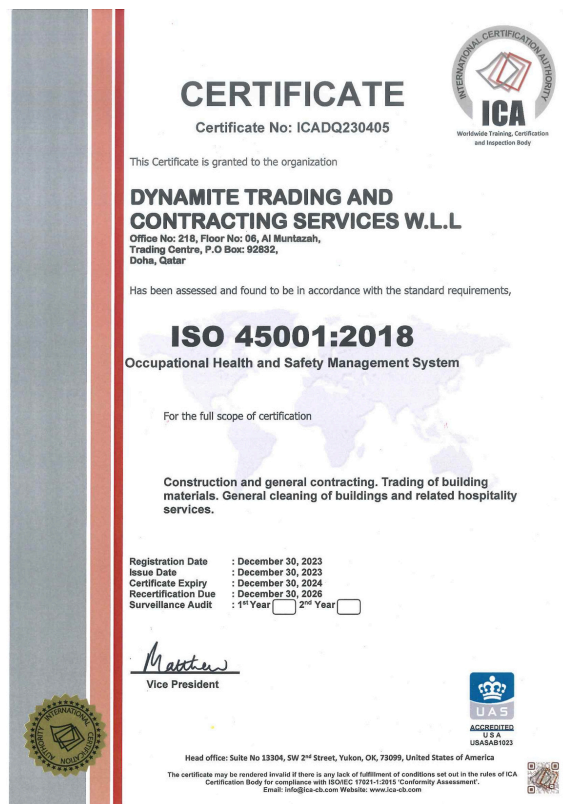

Environmental Assurance: ISO 14001:2015

The company has implemented an Environmental Management System that complies with ISO 14001:2015 standards, certified under Certificate No. ICADQ230404. This includes:

- Fulfilling all environmental obligations, clients' specifications, and industry standards in construction, general contracting, trading of building materials, and general cleaning of buildings and related hospitality services.
- Complying with all statutory environmental regulations and codes of practice.
- Providing and maintaining a good, clean environment and a safe workplace.
- Promoting environmental awareness and responsibility among employees through training and adequate resources.
- Continuously improving environmental performance and methods of working.

Our commitment to environmental responsibility is foundational to our operations, driving us to meet and exceed expectations consistently in all our services.

Commitment to Occupational Health and Safety

Health and Safety Policy: ISO 45001:2018
